

### **Associate of Applied Science: Renewable Energy Technology Degree and Renewable Energy Technology Certificate**

The PE requirement for the RET AAS and RET Certificate has been revised. Previously, students were required to take PE 182H Adult Fitness (1 credit). Now they may take any of the PE courses (PE 182H, PE 182J, PE 183P, PE 183R, or PE 185K) to fulfill their requirement for one credit of PE. This revision is in effect as of fall term.

### **Art Courses**

Number changes for ART courses: New course numbers have been designated for a series of art classes that went from being repeatable two times for credit to non-repeatable. The changes are:

- ART 231 Drawing I is now ART 230
- ART 270 Printmaking I is now ART 269
- ART 281 Painting is now ART 280
- ART 284 Watercolor I is now ART 286

**Correction:** The current catalog lists an incorrect minimum for the Oregon Transfer Module in the header on page 55. The minimum number of credits is 45.
