Administrative Rule Statement

Three different assessment models will be used by departments/programs to assess degree, certificate, and program outcomes:

- 1) course grades for a wide range of courses that have been mapped to specific degree and certificate outcomes are aggregated, and targets are set
- 2) specific course assignments are mapped to given degree/certificate outcomes and targets are set regarding grade achievement;
- 3) external evaluators assess student performance using a rubric that aligns with outcomes, and targets are set

Data for degree, certificate, and program outcomes assessment will be collected by departments annually. Analysis of data will be performed at the time of the department's Program Review to inform changes and improvements to degree/certificate/program curriculum.
