# PLANNING PROCESS

## REPORT PUPOSE AND PROCESS

The goals and intent of this campus plan and planning process is to establish a framework for thoughtful, organized sustainable growth supported by an inclusive process involving faculty, staff and community members. CGCC embraces Wasco County and its many communities, large and small. A core element of this process was to understand the educational needs of the region and how best to support it with campus and facility planning. The planning process included the guidance of a Steering Committee, with committee members representing faculty, staff and college leadership. The process began with education visioning and needs workshops for both The Dalles and Hood River Campuses. These sessions explored the academic strengths and weaknesses, identifying and informing program focuses for the future. With data from the visioning and needs analysis, the Steering Committee developed necessary campus improvements that could be accomplished in a five-years period. These improvements reflect CGCC's instructional program focus and community needs.

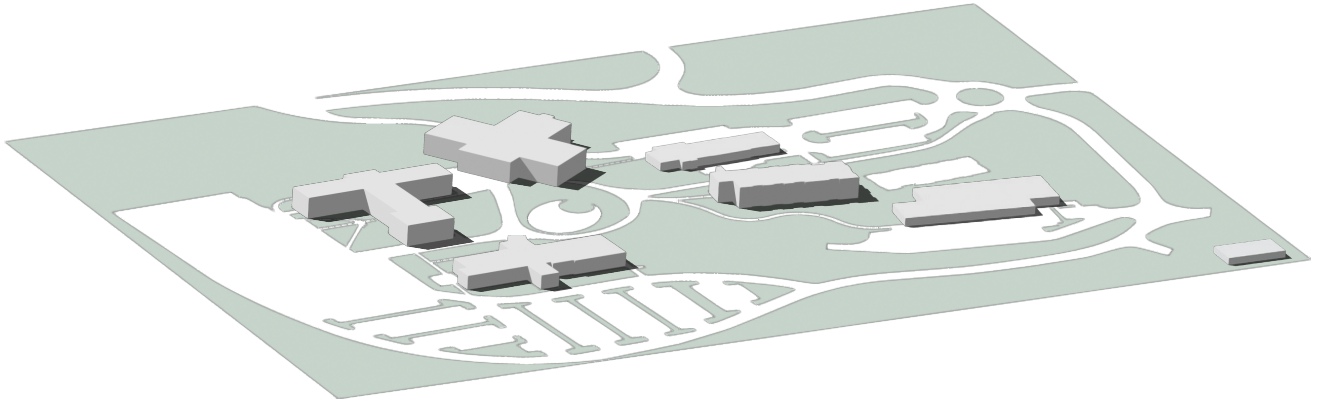

COLUMBIA GORGE COMMUNITY COLLEGE

# Campus Analysis

## APPROACH

The campus analysis began with a facilities inventory of all buildings, the function and use of each room, and room area. To accompany the building plans, CGCC's room inventory has been included that documents each room, its seat capacity, and technology equipment. Both plans and room inventories are included in the Report Appendix. With a basic understanding of all buildings and their use, the following assessment of campus infrastructure was conducted to capture current usage and capacities for future growth and expansion.

## THE DALLES CAMPUS

The Dalles Campus consists of 8 primary buildings and the adjacent Fort Dalles Readiness Center. Buildings 1, 2, and 4 date back to the original medical facility and support both administrative and instructional activities. Building 2 was added in 2007, providing a new home for student services and program instruction. In 2020 Building 5 (Skills Center) and Building 6 (Residence Hall) were added to the campus, providing instructional space for career and technical education programs and on-campus residency for students.

**THE DALLES CAMPUS**

**UTILITIES**

**CURRENT UTILITIES**

The campus infrastructure systems currently consist of water, sanitary, storm water, natural gas, electrical and technology. All systems are served by local and regional providers and are in good condition with capacity for future campus growth.

**THE DALLES CAMPUS****VEHICULAR CIRCULATION & PARKING****CURRENT VEHICULAR CIRCULATION AND PARKING**

CGCC has a simple but efficient parking and vehicular circulation system. With 2 primary parking lots and overflow parking accommodated at the Readiness Center, general daily parking is well served. With the Addition of the Skills Center and Residence Hall, additional parking could be added to serve these uses. Future parking may also be needed adjacent Building 11 when it is renovated for Paramedicine.

**THE DALLES CAMPUS****PEDESTRIAN CIRCULATION & OPEN SPACE****CURRENT PEDESTRIAN CIRCULATION AND OPEN SPACE**

CGCC's has a centralized circulation system of sidewalks and roads. The main campus gathering space is the small amphitheater in the center of campus which the pedestrian walkways radiate from. With the addition of the Skill Center and Residence Hall to campus, additional walks are needed to fully integrate these buildings into the campus.

# HOOD RIVER CAMPUS

Consisting of a single building with parking, the Hood River Campus is located south of downtown Hood River. Campus growth is limited due to the adjacent ravine on the west and north campus boundaries. Needs for the next 5-years are focused in interior building improvements to support program needs and growth.

COLUMBIA GORGE COMMUNITY COLLEGE

# Needs Assessment

## APPROACH

Through a series of workshops, the following needs were established. The process began by focusing on the needs of current and future academic and instructional programs, services to support student success and retention, and activities and facilities that support and reinforce CGCC's community partnerships. These needs were prioritized into near-term (5-years) and far-term (10-years). The near-term needs became the primary focus of the proposed 5-Year building and campus improvements.

# INSTRUCTIONAL NEEDS

## THE DALLES CAMPUS – 5 YEAR NEEDS

### STUDENT SUPPORT NEEDS

#### Childcare facilities

- #1 Reason students miss classes and for dropping out.
- Student internships at the childcare facility.
- Need to identify ways of bringing students into the Early Childhood Education (ECE) Program - Early ECE is limited across the country.
- Community Partners could help support / fund.
- Hard to staff.

#### Food Service / Dining

- Approach to food service continues to challenge the campus. How does CGCC provide quality service and make it financially viable?
- Improvement to create a commercial kitchen that can support culinary instruction.
- Outdoor eating space at CGCC is limited (lack of tables).

#### Student Services

Current Student Services Suite is adequately sized but could use the following improvement:

- A “welcoming feel”.
- Improved wayfinding.
- Staff goes to students instead of students coming to staff.
- Triage approach with more comprehensive services in a single stop/engagement.
- Leave personal office space behind and engage students in a neutral environment.
- Current location in Building 3 is good.
- Programs that should also be included in the SS Suite:
  - ABE
  - GED
  - ESOL

#### Residential life

- Res life staff.
- 24/7 operations and support.
- Security and response protocols.
- Limited dining facilities & could benefit from a cafe/coffee cart
- Outdoor eating space at CGCC is limited (lack of tables).

#### Student Recreation

- A task force is currently reviewing creating a small fitness center in Building 1 to support health and wellness.

### INSTRUCTIONAL NEEDS

#### General Instruction

- Fall Term Enrollment: 40% remote, 40% in person, 20% hybrid.
- Instructional spaces that can be easily adapted for zoom classes/lectures.
  - Very time consuming currently to set up.
  - Flexible/more easily configurable classrooms (furniture).
  - Designated rooms that are always configured.
- Remove barriers for learning to allow quick access to computers / technology.
  - Writing classes 15 students
  - Literature/Art Lecture 30 students
  - Art Class 24
- 2-3 Larger Classrooms with capacity of 40-50.

#### Nursing

- Cohort size is increasing from 24 to 30 students and there are limited classrooms on campus to accommodate 30 students.
- Current EDA grant to create new simulation suite. Suite will accommodate both CGCC and community use.
- Skills Lab currently accommodates 4 beds and additional space is needed to increase to 8 beds.
  - Future Program growth:
    - Evening part-time classes.
    - 2nd day-time cohort.
- CNA Program does not appear to have any immediate needs.

### Medical Assistant

- Current program has 9 students with the goal of growing to 32 students.
- Current enrollment is depressed due to COVID, but future growth is expected.
- Future lab requirements will require additional review. Current lab can accommodate 4 exam table.

### Paramedicine

- A new program to CGCC with a projected Fall 2024 enrollment of 15-18 students.
- Program growth target is two-cohorts of 24 students.
- Program will require a simulation lab and place to locate an ambulance on campus that is accessible to classroom / lab space.

### Science Equipment

- Limited budget
- 12-16 students per lab - limited availability for the labs.
- Problem stretches throughout campus - Instructors working to get funding for equipment / fix equipment, which dilutes the pedagogy.
- Lab renovation – 10 Year Plan.

### Aviation / AMTS (Off Campus)

- Currently off campus.
- To be successful it needs to be held at the airport, in an environment that helps students be successful.
- Will need to be housed in a hangar at KDLS within the 5-year short term window.
- Program is expected to grow exponentially after the first cohort.
- No room for safe growth beyond 12 students in current facility.
- Groundbreaking and infrastructure proceeding with in 3 years is desirable in order to keep interest and show support to the aviation community and to those that will inevitably want to engage in this very exciting and lucrative career path.

### SBDC - Digital Media Center

- Currently located in Building 12.
- Three spaces needed within the suite.
  - Video Room
  - Audio Room
  - Post-production
- Procuring a \$50K grant for improvements with the goal of raising an additional \$250K.
- Used by both campus and community.

- Zoom Rooms – One for each campus.
- Opportunity for collaboration between students and small community businesses.

### SBDC - Commercial Kitchen

- CGCC has a Strategic Development Plan.
  - Three phases of growth.
  - Kitchen to support food service, culinary program and community-based programs.
- There is a shortage of freezer / cold storage facilities on the Gorge.

### SBDC - Fermentation Lab (Off Campus)

- Beer, wine and cider are the focus.
- Facility could be on-campus or in The Dalles community (possible partnership location).
- Developing and application for a US Agriculture Grant.
- Creating relationships with local brewers.

### Print Center (in Bookstore)

# INSTRUCTIONAL NEEDS

## THE DALLES CAMPUS – 10 YEAR NEEDS

### STUDENT SUPPORT NEEDS

#### Student Rec

- Currently the campus has no dedicated outdoor recreation space.
- Space is needed to administer an outdoor rec program and rental equipment.
- Campus amphitheater seems underutilized.

#### Student Athletics

- Women's and men's soccer will begin in fall of 2024. Facilities are needed to support these programs:
  - On campus turf field. Will also support campus and community recreation.
  - Indoor training and locker rooms.

### INSTRUCTIONAL NEEDS

#### Dental

- A possible future program in the next 5-10 years.

#### Fire Science

- A possible future program in the next 5-10 years.
- Could be coupled with resource management.

#### VET Tech space

- Ability to provide a VET tech teaching program alongside dog daycare.
- May be an issue with the current rule of no dogs allowed on campus.
- Community Ed. Classes
- Held across campus due to no dedicated rooms.
- Held both indoor and outdoor where space can be found.

#### Building 4

- Building presents an un-safe condition for art instruction – building systems need replacement.
- Ceramics room is limited by the current space: lack of windows, power, and conversation with art directors.

#### Early Childhood Education (ECE)

- 1 day every other week, very limited classes and easily moveable in schedule.

#### Culinary Instruction

- Use shared kitchen with Food Service.

## HOOD RIVER CAMPUS NEEDS

### 5-year Needs

- Writing Resources / Private Space for tutoring center.
- Private space for faculty to work with students (2-4 students).
- Outdoor spaces to support students, spaces that are indoor/outdoor and have accessibility flexibility from an interior space.
- Coffee Cart.
- Outdoor power in parking lot for community events.
- Improvements to shared office space.

### 10-year Needs

- Access to north grass area.
- Improve building connectivity.
- Second wet lab.

# FACILITIES AND INFRASTRUCTURE NEEDS

## 5-YEAR FACILITY AND INFRASTRUCTURE NEEDS

### Overall facilities infrastructure needs

- Access control is no longer supported.
- Double stripes on roads.
- Outdated sewer pump.
- Pedestrian circulation across campus.
  - Skill Center to Building 3 and Building 10.
- Outdoor building pad for woodshop.

### General Wayfinding

- Signage & outdoor paths need to be easier to identify and know where they lead.

### Connectivity

- Many buildings have been updated starting in 1984 and more recently in terms of utilities.
- Cell service is limited because it comes from Portland.
- Wi-Fi updated 5 years ago, but already outdated.
- Students use Wi-Fi in the parking lots when they don't have Wi-Fi at home, so critical to student success.

### General Building Needs

- Security
  - No building manned security.
  - Active partnership for security is too expensive currently but will be the future solution.
  - Increased use of exterior cameras.
- Data/Wi-Fi
  - Bldg. 10 - Issues with lack of cell phone signal and walking path up to the building (students are destroying hillside).
- Parking
  - Lacking between Skills Center & Building 10 is limited and always full.
- Egress / Entrances could use updating across campus.
- HVAC
  - 2008 installation was last major work on Bldg. 1 & Bldg. 2.
  - Bldg. 1 & Bldg. 2 feel as though there is no heat/cooling because of retrofitted systems (Bldg. 2 units are undersized).
  - Remaining buildings range from 1984, 1991, 1999, and on last leg.
  - All buildings are air conditioned except hallways for Bldg. 1 supplied by air handlers & Bldg. 12..

- Elevators
  - Bldg. 2 elevator is cable driven and requires replacement.
- Access
  - ADA Parking for Building 3.
- Plumbing
  - Plumbing issues especially in Bldg. 4 due to clay going down drains.
- Electrical
  - Access Control across campus – gradual implementation.
- Fire safety is needed across campus.
  - Sprinklers in Bldg. 1, 2, 4

## 10-YEAR FACILITY AND INFRASTRUCTURE NEEDS

### General Building Needs

- Egress/Entrances requiring updating across campus.
- Elevators
  - Bldg. 1 & Bldg. 3 elevators need maintenance/repair.
- Access
- Bldg. 1 & Bldg. 4 require ADA access updates.
- Exterior Stair Landings out of Bldg. 2 are a hazard and you must check before exiting to not hit anybody.
- Bldg. 12 electrical getting updated this summer of 2023.
- Fire safety – hillside access.
- Building 12 – electrical upgrades.
- Parking for Building 6.

## COLUMBIA GORGE COMMUNITY COLLEGE

# 5- Year Improvements

## APPROACH

Campus improvements targeted over a 5-year period will focus on student health and wellness, instructional delivery, and program growth. These improvements will occur on The Dalles and Hood River campuses:

### THE DALLES CAMPUS

#### Student Support

- Create a “Student Hub” in Building 1, bringing together food, social space and recreation.
- Improve delivery of Student Services in Building 2

#### Health Sciences

- Create a new Nursing Simulation Suite in Building 1.
- Minor improvements to the Medical Assistant Lab.
- Renovate Building 11 into a Paramedicine Lab.

#### Food Service

- Improve efficiency of food rep and delivery.
- Expand Commercial Kitchen / Lease Space and food storage.
- Relocate Teaching Kitchen.

#### Art Program

- Repurpose Building 4 with modern building systems and a seismic upgrade.
- Relocated the Community Food Bank to the basement of Building 1 to allow the Art Program to expand.

#### Aviation Program (Off Campus)

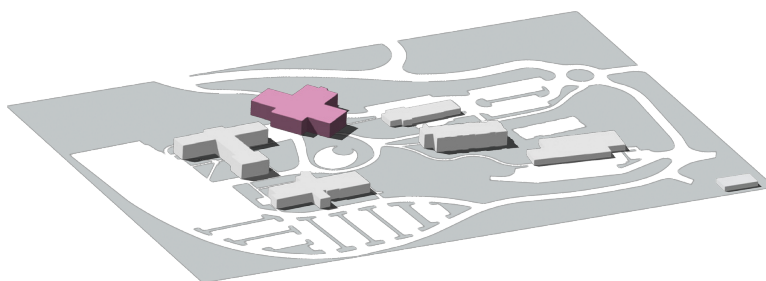

- New Facility at Columbia Gorge Regional Airport.
- Provide “real world” instructional environment.
- Potential revenue generation from lease space.

#### Auditorium

- Enhance Instruction with update technology and acoustics.
- Upgrade interior finishes.
- Replace stage with ADA improvements.

#### Hood River Campus

- Improve operation with building lobby modifications.
- Expand faculty office and workspace.
- Add student collaboration rooms.
- Add a second general purpose science lab.
- Improve storage for Art Instruction.

## THE DALLES CAMPUS

# STUDENT SUPPORT

To support the growing need of CGCC's students, the creation of a centralized area on campus that brings together food and dining, spaces for socializing, and student recreation was established in Building 1. This "HUB" concept will be accomplished by renovations on the Basement Level and First Floor. The existing recreation room in the basement will be expanded to include space for cardio, weights and stretching. Adjacent to this area will be the new home for the Community Food Bank, relocated when Building 4 is renovated for the Art Department.

On the First Floor adjacent to Food Service, the Dining Area can be configured to create a student lounge and social space with furniture and improvements to room finishes. The Boardroom will be reduced in size and moved across the corridor to make space for the C-Store and Bookstore (deliveries), improving efficiency and student access to on-the-go food.

Student Services will remain in Building 2 and is under review and development to improve its function and to create a "Student Support and Wellness Center".

### **PROGRAM NOTES:**

#### **Student Center**

- "HUB" concept desired for Building 1, utilizing Basement, 1st and 2nd Floors to bundle student support and social activities.
- The HUB Committee is reviewing the following needs:
  - Library / Learning Commons (Level 2)
  - Student Government and Clubs (Level 1 or 2)
  - Food Service / Cafe (Level 1)

- Bookstore (Level 1)
- Student Lounge and Game Room (Level 1)
- Student Gym and Rec Equipment Rental (Basement)

#### **Student Recreation**

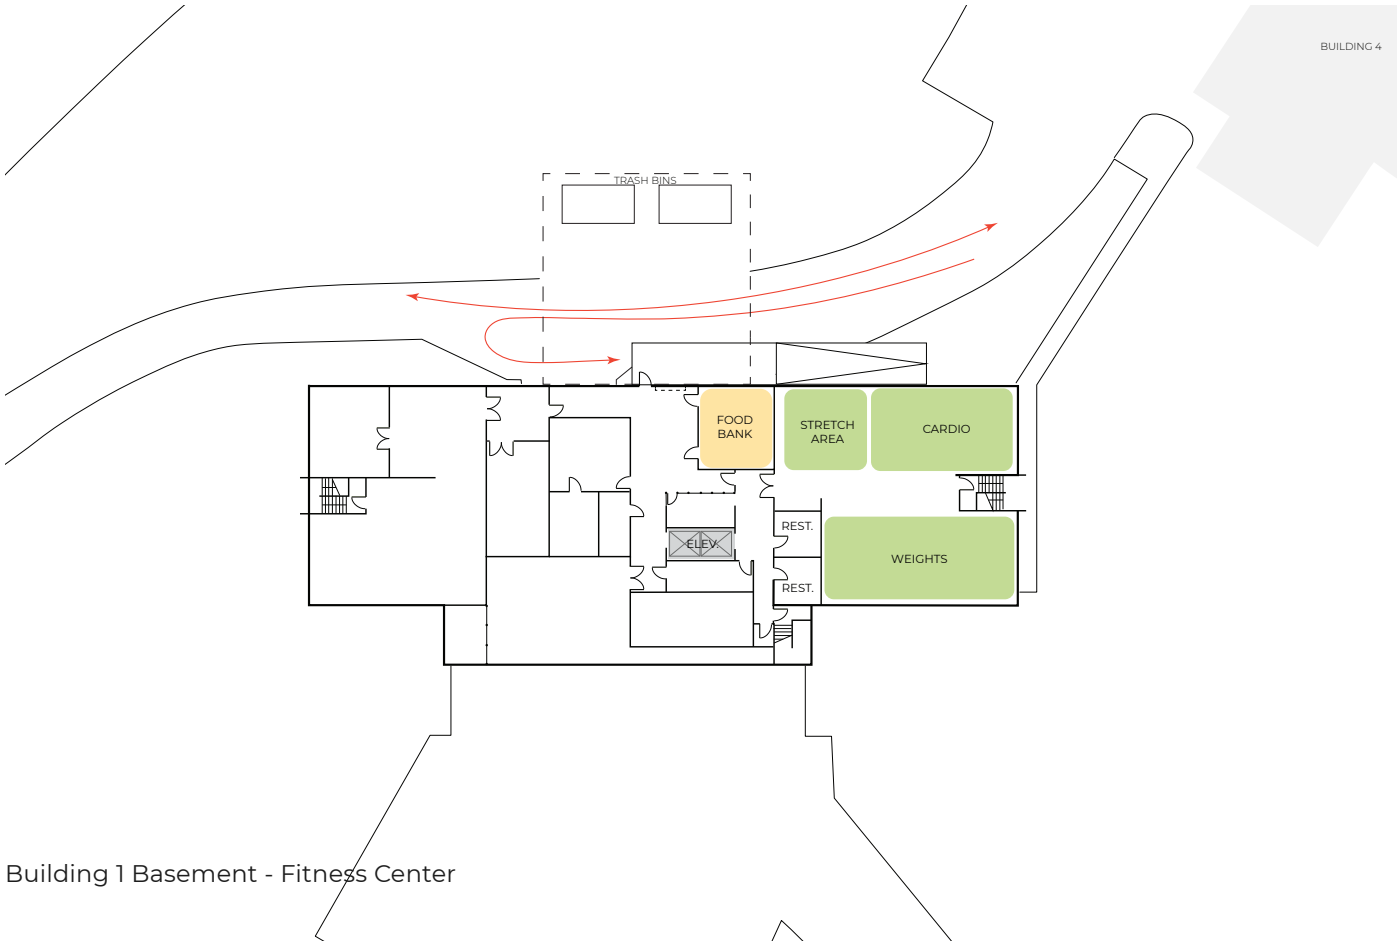

- A task force is currently reviewing creating a small fitness center in the basement of Building 1 to support health and wellness.
- Currently the campus has no dedicated outdoor rec space.
- Space is needed to administer an outdoor rec program and rental equipment.
- Campus amphitheater seems underutilized.

#### **Bookstore**

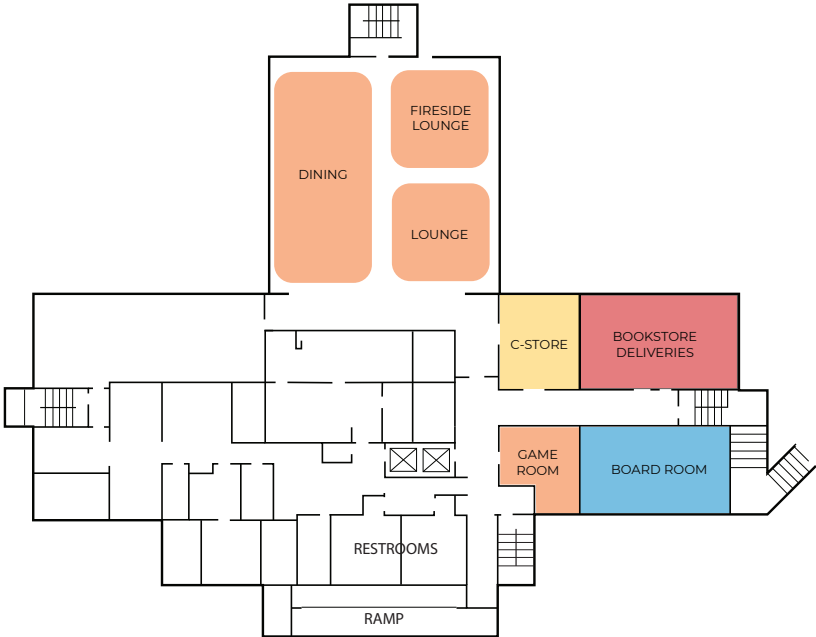

- Currently located in Building 2, but it's ideal location would be in Building 1 adjacent to Cafeteria. Book storage is not required due to on-line order/purchase approach.

#### **Student Services**

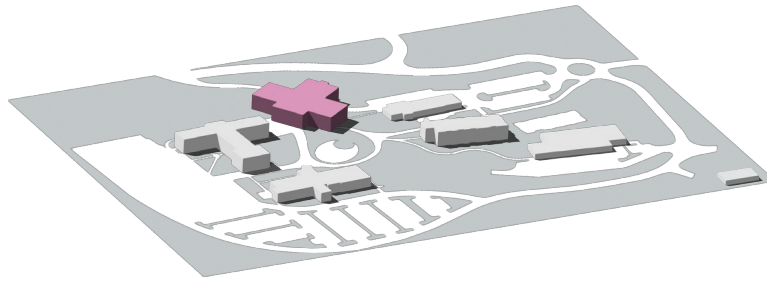

- Approach to providing services in Building 2 is currently under review by the Administration to improve delivery and better serve student:
- The goal is to create a "Student Support and Wellness Center".
  - Counseling, mental wellness, and behavioral assessment.
  - Disability services.
  - Veterans Center
- The current Student Services Suite is adequately sized but could be improved to create a welcoming feel, improve wayfinding, and include ABE, GED and ESOL.

Building 1 Basement - Fitness Center

Building 1 Level 1 - Student HUB

## THE DALLES CAMPUS

# FOOD SERVICES & COMMERCIAL KITCHEN

Improvement to the existing kitchen / food service area in Building 1 will enhance the delivery of campus food service while adding lease space capacity for community start-ups. Food Service improvements would be focused on more efficient food prep and delivery. To increase lease space for regional partners, the teaching kitchen will be relocated to the adjacent underutilized classroom. Moving the Teaching Kitchen will also improve its ability to accommodate larger groups and allow it to be used as a flexible hospitality event space.

### **PROJECT NOTES:**

#### **Campus Food Service**

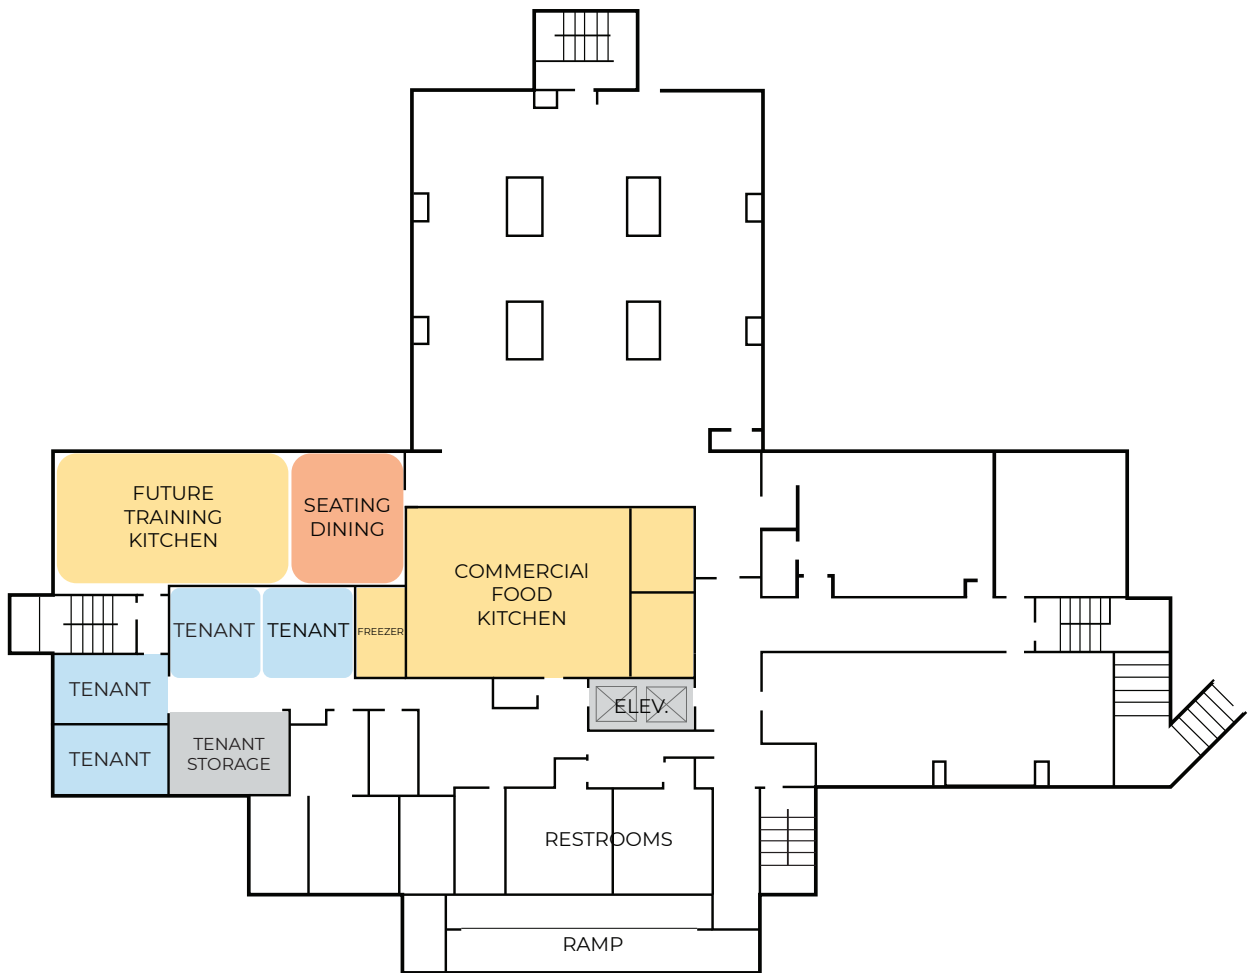

- The serving area / counter could be reduced to provide additional space for food prep and cooking. Overall space for food prep, cooking, and serving is adequate if reconfigured.
- Café aesthetics require improvements. Create formal and casual dining areas.
- Dry storage is adequate if tenant storage is expanded.
- Freezer storage requires expansion.

#### **Commercial Kitchen / Lease Space**

- Requires additional dry and cold / freezer storage.
- Remove walls between current spaces to increase flexibility of space usage.
- Overhead drop-down power cords.
- Very poor ventilation and heating create challenges for tenants.
- More flexible counter space for catering use.

#### **Teaching Kitchen**

- Used for campus and community catering.
- Cooking and baking equipment used by tenants
- Currently used infrequently for community cooking classes, but the program hopes to increase this in the future.
- Moving location to adjacent underutilized classroom space would allow expansion and area for demonstration with seating / dining area.

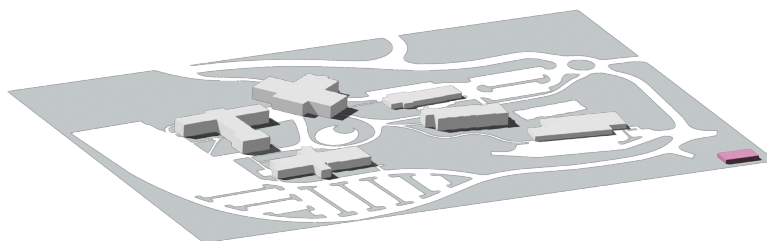

EXISTING FOOD PREP KITCHEN

EXISTING DEMONSTRATION KITCHEN

Building 1 Improvements - Food Services

## THE DALLES CAMPUS

# HEALTH SCIENCES

To support the continued program growth in the Health Sciences, improvements are needed to instructional spaces for the Nursing, Medical Assistant, and Paramedicine Programs. An EDA Grant was secured for the renovation of the nursing simulation lab and is in the early design phase. The Medical Assistant Lab needs can be accommodated with minor casework improvements. The Paramedicine Program can be accommodated with improvements to Building 11, creating a classroom, in-lab ambulance use, and equipment storage.

### PROJECT NOTES:

#### Nursing

Grant for simulation lab renovation was secured and a Design Team has been selected for the lab renovation on Level 3 of Building 1.

- Cohort size is increasing from 24 to 30 students and there are limited classrooms on campus to accommodate 30 students.
- Current EDA grant to create new simulation suite. Suite will accommodate both CGCC and community use.
  - Skills Lab currently accommodates 4 beds and additional space is needed to increase to 8 beds.
- Future Program growth:
  - Evening part-time classes
  - 2nd day-time cohort
- CNA Program does not appear to have any immediate needs.

#### Medical Assistant

Current lab space with 4 exam tables is adequate with the removal of former chemistry lab casework in middle of room.

- Current program has 9 students with the goal of growing to 32 students.
- Currently enrollment is depressed due to COVID, but future growth is expected.
- Future lab requirements will require additional review. Current lab can accommodate 4 exam table.

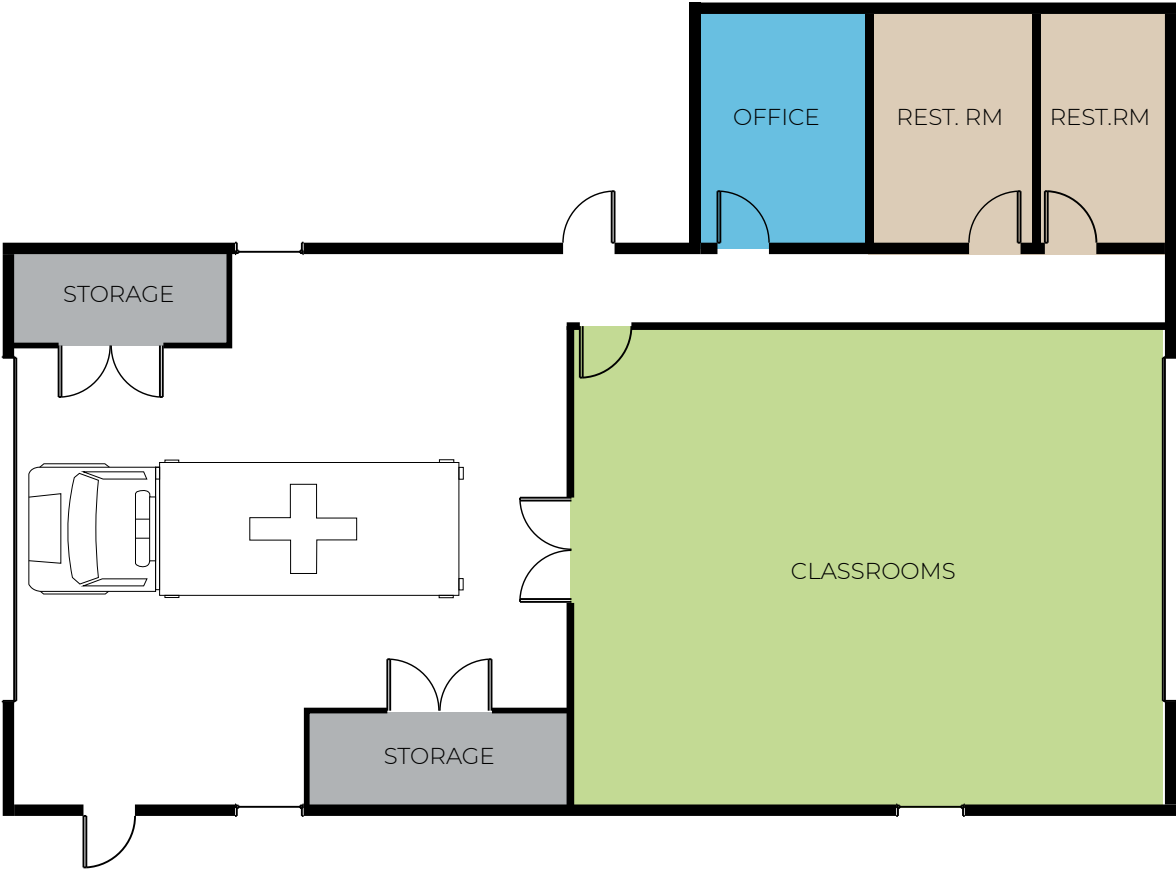

#### Paramedicine

Program needs dedicated instructional space. Improvement to Building 11 to include the following program needs:

- Current program – 12 students
- Program growth should include space for 18-20 students.
- Open flexible floor space desired with adjacent storage of equipment.
- A new program to CGCC with a projected Fall 2023 enrollment of 15-18 students.
- Program growth target is two-cohorts of 24 students.
- Program will require a place to put an ambulance on campus that is accessible to classroom / lab space.

#### Dental Hygiene

- Program projected in the next 5-10 years. Potential home for program could be in the Basement of Building 1. Program could include Dental Assistant and/or Dental Hygiene. Chair count could range from 8 to 18.

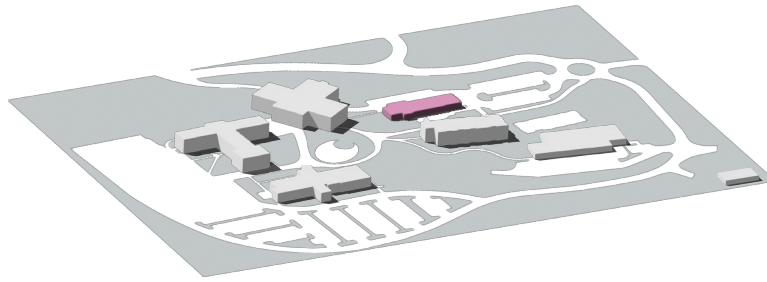

EXISTING BUILDING 11 EXTERIOR

EXISTING BUILDING 11 INTERIOR

Building 11 Improvements - Paramedicine

## THE DALLES CAMPUS

# ART PROGRAMS

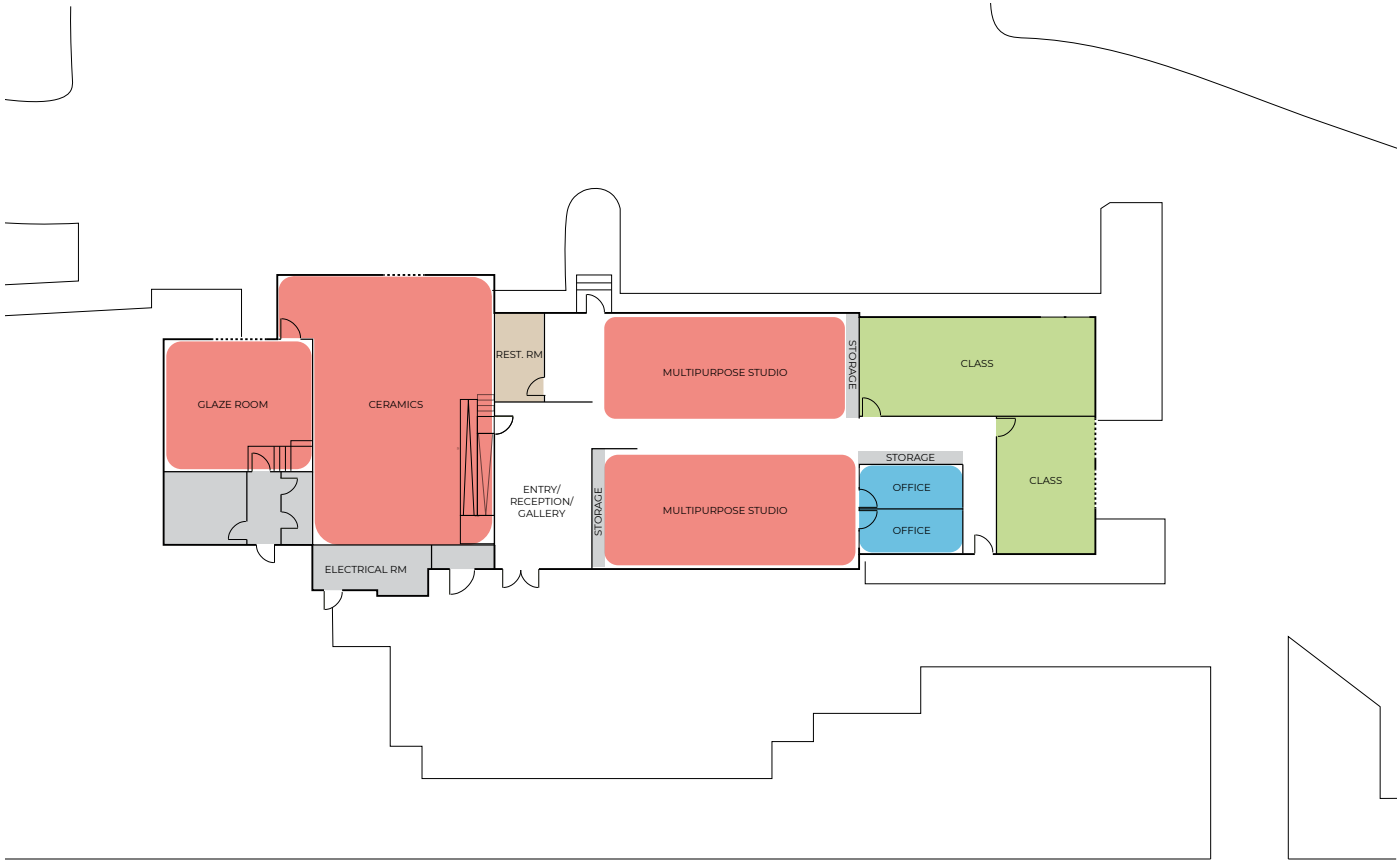

The renovation of Building 4 would accommodate the current and future needs of the Art Department. The building would undergo a complete renovation that would include a structural seismic upgrade, new mechanical and electrical systems, and improvement to comply with accessibility. To acquire additional space, the Community Food Bank is proposed for relocation to the basement of Building 1.

### PROJECT NOTES:

#### **Art Program**

- Ceramics – 20 wheels and space for kilns and glazing. Needs a separate space to isolate dust that impacts other studio activities.
- Print Making, Drawing and Watercolors
  - Flexible studio space to accommodate 20-24 student.
  - Separate storage for each discipline.
  - Community Ed Programs
  - Felting
  - Wood block carving
- Faculty offices (2)
- 2 general purpose classroom
  - 24 seat
  - 12-16 seat

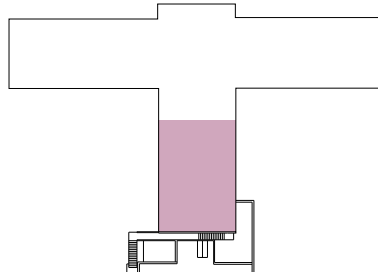

EXISTING OPEN STUDIO

EXISTING SMALL CLASSROOM

Building 4 Level 1

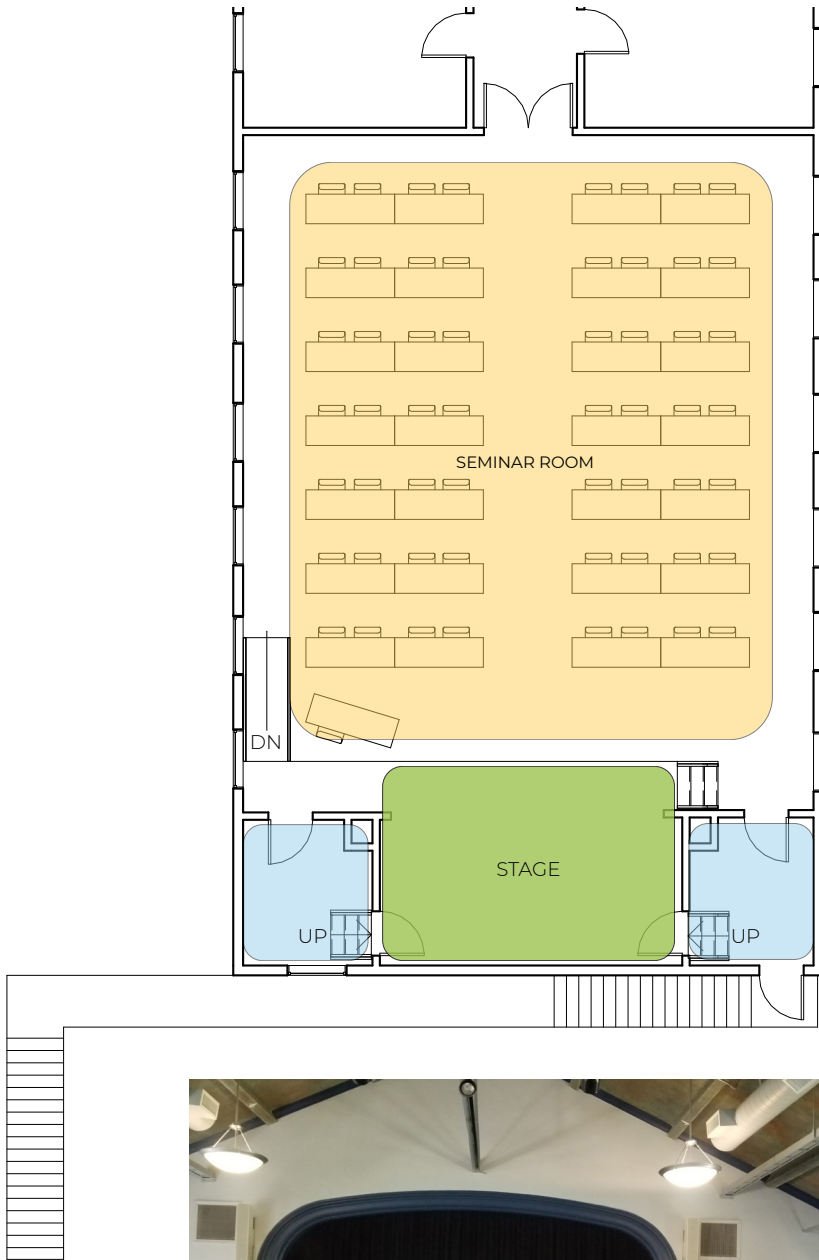

## THE DALLES CAMPUS

# AUDITORIUM

As the largest instructional space on campus, the Auditorium in Building 2 maintains the historical roots of the original campus facilities but has many deficiencies that require improvements for it to remain a campus and community asset. Improvements would include:

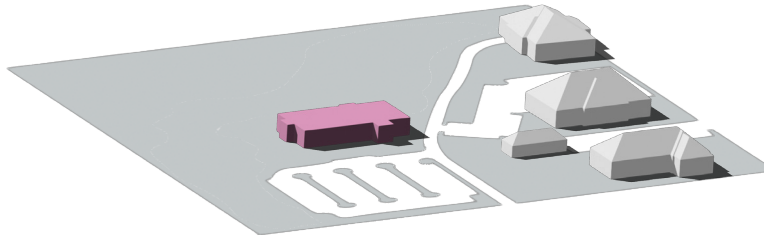

- Bringing the space in compliance with universal access standards (ADA) by replacing the stage with one of similar size with a ramp for wheelchair access.
- The mechanical system is aging and requires replacement. This will allow air conditioning to be added.
- Improved audio-visual systems to support multi-media presentations.
- Improved acoustics to support improved audio-visual.
- Updated interior finishes.

1/16TH SCALE

Building 2: Auditorium Level 3

## COLUMBIA GORGE COMMUNITY COLLEGE

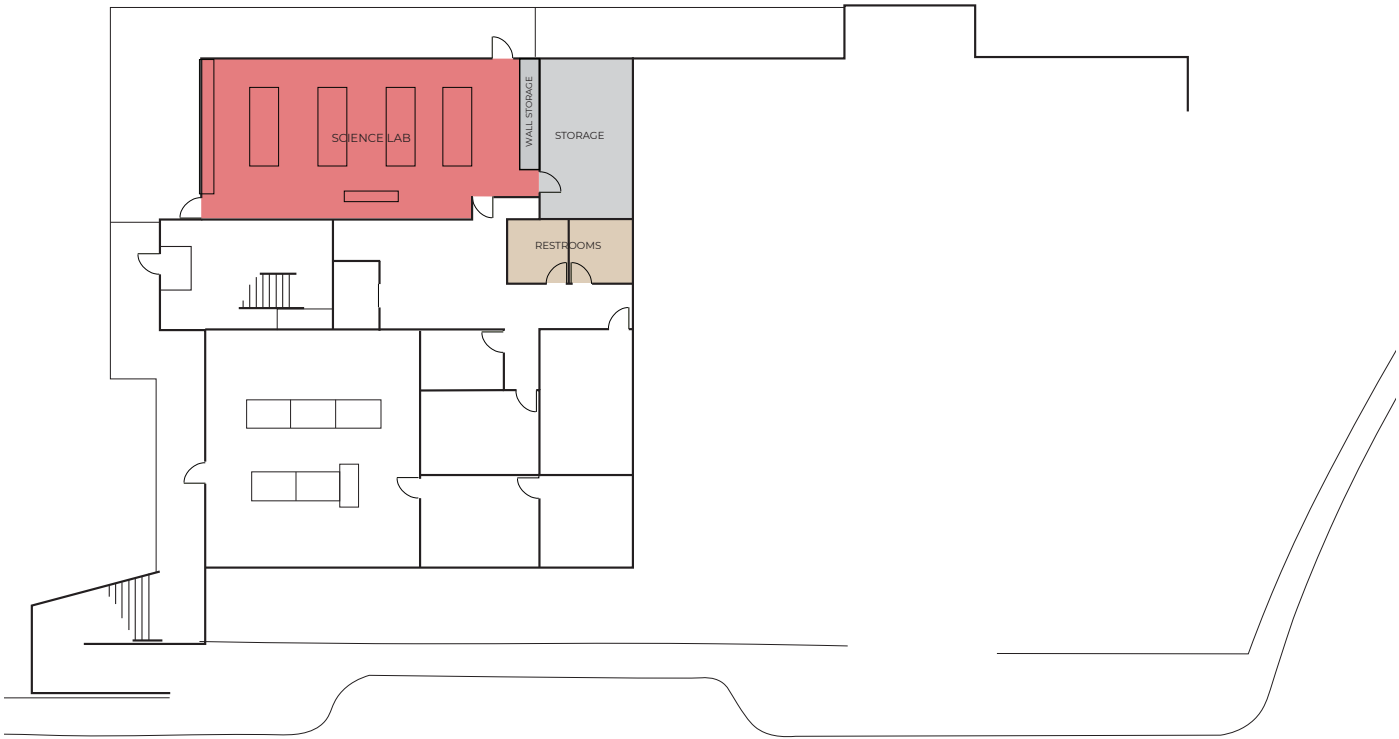

# HOOD RIVER CAMPUS

To accommodate the evolving needs of the Hood River Campus, improvements will be focused on instructional space, campus operations, and student accommodation. Modifications to the First Floor will include removal of the entry desk to create a more open and welcoming feel for students and campus visitors, additional space for faculty and the administration staff, and the addition of two enclosed small study rooms for student collaboration.

To increase the delivery of science programs, two existing basement classrooms will be renovated into a general-purpose science lab and adjacent storage. To support the campus Art Programs, storage cabinets with a sink will be added to a second-floor classroom.

### Campus Needs

- Increase functionality of building entry lobby and desk to improve welcoming feel and operations.
- The existing Science lab is undersized and an additional lab is needed or expand existing lab.
- A dedicated art room with storage.
- Common space
  - Could use individual study room.
  - Separation of library function.
  - Tutoring area
- Space for adjunct faculty is needed.
- Campus signage requires review.
- Ag Tech Program is in development with HRVSD.
- Writing Resources / Private Space for tutoring services.
- Private space for faculty to work with students.
- Outdoor spaces to support students, spaces that are indoor/outdoor and have accessibility flexibility from an interior space.
