

HOUSING AND RESIDENCE LIFE ALCOHOL, MARIJUANA AND OTHER DRUGS POLICY

The Housing and Student Life Office (herein referred to as “Housing”) is committed to establishing a comprehensive program to prevent the unlawful manufacture, distribution, dispensing, possession, consumption or use of alcoholic beverages (including, but not limited to, fermented malt beverages, intoxicating liquors, etc.) and controlled substances (including, but not limited to, narcotic, stimulant, hallucinogenic, prescription drugs, etc.) for all residential students. The following information is provided in compliance with the Drug-Free Schools and Communities Act.

The alcohol policy for the Residence Hall (herein referred to as “Hall”) is based on the central and fundamental educational focus of Housing to create an environment that fosters learning. Housing believes in personal responsibility, moral growth and development, awareness of communal consequences of personal choices, obligation of citizenship and responsible decision-making. Therefore, it is critical that students are committed to the physical and emotional well-being of members of the Hall community. Housing will not tolerate disregard for the law or behaviors and practices that counter the education of the whole person or inhibit rigorous scholarship. Consequently, Housing does not condone underage drinking or the use of controlled substances and considers intoxication, disorderliness or offensive behavior deriving from the use of alcoholic beverages or controlled substances to be unacceptable, regardless of a person’s age. Housing will work to provide an environment in the Hall that supports those who choose not to consume alcohol or controlled substances as well as those of legal age who choose to consume responsibly, according to Columbia Gorge Community College (herein referred to as “College”) policy.

To cultivate a Hall environment with the stated goals and purposes, Housing has adopted the following policies and procedures regarding alcohol and controlled substance use/misuse:

STATE, COUNTY, MUNICIPAL LAWS AND ORDINANCES

Members of the Hall community are subject to all state, county and municipal laws or ordinances regulating the sale and use of alcoholic beverages and controlled substances, as well as all Housing and College policies pertaining thereto. A person is expected to be responsible for his or her behavior at all time. Conduct that is in violation of the state, county and municipal laws or ordinances or any Hall or College policies relating to the use of alcoholic beverages or controlled substances may involve the individual in the student discipline process regardless of the action that may be taken by civil authorities. Changes in Oregon state law and/or in local ordinances may require changes to this policy.

PERSONS OF LEGAL POSSESSION AND CONSUMPTION AGE

This policy acknowledges the fact that persons over the age of 21 in Oregon may legally purchase, possess, and consume alcoholic beverages and possess and consume marijuana; however, it remains College and Housing policy that regardless of age no alcohol or marijuana may be consumed or possessed on the College campus and in all College facilities, including the Hall. Those who fall into this category are responsible for setting a positive example to all minors by

discouraging alcohol or marijuana possession or consumption by a minor and related behavior that is abusive to oneself or to others.

UNLAWFUL BEHAVIOR OR MISCONDUCT

Intoxication and/or abuse of alcoholic beverages, marijuana, or other drugs is not permissible as an excuse for other unlawful behavior or misconduct.

ACUTE INTOXICATION

Acutely intoxicated students will not be left in the care of other students, including Housing staff. Students will be referred to appropriate health care facilities and/or law enforcement.
