

Course Assessment– Part B: Your Results & Analysis

#114

Your Email *

Please select your course & name from the list. Contact Instructional Services if your course or name are incorrect or missing.

ECE 236 Language & Literacy 1 Early Childhood Education – Keri Byers – Winter 2016

Results

1a. Report the outcome achievement data gathered via the assignments, test, etc. you identified for each outcomes (question 3) of your Part A. *

My goal for each outcome was that 85% of students would earn a C or higher for each outcome. 95% of my students earned C or higher in the course. Out of these students, 65% earned an A. One student earned an F.

1b. Report the percentage of students who mastered each outcome that you identified in (question 3) of your Part A.

Understand the process of normal language development in young children.

Outcome #1 *

% of students who successfully achieved the outcome: *

95

Outcome #2 *

Apply an understanding of the teachers' multiple roles in facilitating language development

% of students who successfully achieved the outcome: *

95

Outcome #3 *

Evaluate and select literature for young children

% of students who successfully achieved the outcome: *

95

Reflect on your assessment results and provide analysis, considering what contributes to student success and/or lack of success. Include feedback from student course evaluations as appropriate. *

One of the things that I feel contributes to my students success is my clear and precise communication with them concerning my expectations. Students have commented that they appreciate the syllabus and what is expected for them to succeed in the course. I am pleased with the 95% success rate. The student that earned an F did not attend after the second week. I feel that the students know that I truly care about their success in school and our open communication contributes as well.

Based on your analysis in the questions above, what course adjustments are warranted (curricular, pedagogical, etc.)? *

I decided to increase the points earned for attendance and participation because it is vital for their learning and success in the course.

What resources would be required to implement your recommended course adjustments (materials, training,

N/A

equipment, etc.)? What Budget implications result? *

Were your assessment methods accurate indicators of student learning? Why or why not? Any additional comments? Yes

(OPTIONAL) Reflect on any adjustments you made from the last assessment of this course and their effectiveness in student achievement of outcomes?
