Reflect on you assessment results and provide analysis, considering what contributes to student success and/or lack of success. Include feedback from student course evaluations as appropriate. *	When students attend 90% or more for the face to face instructional class time they achieve these outcomes. Having environments to go see and children to interact with contributes to their success.
Based on your analysis in the questions above, what course adjustments are warranted (curricular, pedagogical, etc.)? *	I would like to use the computer lab next time I teach this class.
What resources would be required to implement your recommended course adjustments (materials, training,	Budget DVD's that are course related

equipment, etc.)? What Budget
implications result? *

Were your assessment methods accurate indicators of student learning? Why or why not? Any additional comments? Yes. The activities align with the curriculum expectations.

(OPTIONAL) Reflect on any adjustments you made from the last assessment of this course and their effectiveness in student achievement of outcomes?
