

# Course Assessment– Part B: Your Results & Analysis

#85

Your Email *	tlieurance@cgcc.edu
Please select your course & name from the list. Contact Instructional Services if your course or name are incorrect or missing.	SAF 188 Industrial Safety & OSHA 10 – Lieurance
<b>Results</b> 1a. Report the outcome achievement data gathered via the assignments, test, etc. you identified in question 3 of your Part A. *	Students will be tested on the material presented in class, on line, and in the book. all students met all outcomes at the 80% or above level and completed 80% of their work on time and achieved at least 80% on the assessments.
1b. Report the percentage of students who mastered each outcome that you identified in question 3 of your Part A.	Recognize hazardous situations on the job.
Outcome #1 *	
% of students who successfully achieved the outcome: *	100
Outcome #2 *	Apply the 29 CFR 1926 OSHA construction industry safety regulations in an industrial environment.
% of students who successfully achieved the outcome: *	100
Outcome #3 *	Understand worker safety rights.
% of students who successfully achieved the outcome: *	100
Reflect on you assessment results and provide analysis, considering what contributes to student success and/or lack of success. Include feedback from student course evaluations as appropriate. *	The class for OSHA is pretty much “canned” with specific outcomes and assessment methods. This is a 2 credit college program that has plenty of time for the OSHA material plus climb training and other safety subjects that they will run across in the wind industry and general industry. We discussed as a class and written testing what makes a safe workplace and what workers’ rights are.
Based on your analysis in the questions above, what course adjustments are warranted (curricular, pedagogical, etc.)? *	Start the OSHA materials earlier in the class.
What resources would be required to implement your recommended course adjustments (materials, training, equipment, etc.)? What Budget	Make sure the podium works properly. Without it the class is very difficult.

implications result? \*

---

Were your assessment methods accurate indicators of student learning? Why or why not? Any additional comments?      yes, They were assessed, written and as class oral exercise, over the material we covered in class.

---

(OPTIONAL) Reflect on any adjustments you made from the last assessment of this course and their effectiveness in student achievement of outcomes?
