PSY 201A – Introduction to Psychology – Part 1 – Kane – Fall 2016

Part A: Your Plan
[Directions](#)

Articulate how psychological research adheres to ethical and scientific principles, and communicate the difference between personal views and scientific evidence in understanding behavior.

1. Choose three of your course outcomes to assess and report on this term (these will also be used in your Student Course Evaluation survey):

Outcome #1 *

Outcome #2 *

Delineate the credentials, skills, and experiences required for a career path in psychology and identify broad career opportunities associated with the various subfields of psychology at different educational levels.

Outcome #3 *

Recognize and respect human diversity while anticipating that psychological explanations may vary across populations and contexts, and exhibit sensitivity to feelings, emotions, motives, and attitudes regarding specific behavioral concerns.

Have you completed an assessment for this course prior to this term?

Yes

If yes, are you assessing different outcomes?

Yes

Comments:

The first two have not been previously assessed by me. I am reassessing the 3rd outcome.

2. To which degree, certificate or program outcomes do these course outcomes map?
