Method of Assessment

3. What methods will be used to assess individual student understanding of each of these outcomes? (Please be specific.)

Each student will record three areas of their life they wish or intend to improve based on a physical, emotional and mental level. In each area all students will record their hopes for improvement based on participation: increase flexibility, increase strength, decrease stress, decrease anxiety, improve focus, improve mental clarity etc.

Outcome #1: Method to assess student understanding *

Outcome #2: Method to assess student understanding *

Method to assess student Each student will physically demonstrate a 30 minute sequence that is understanding * specifically designed to their individual goals.

Outcome #3: Method to assess student understanding *

Method to assess student After each demonstration, students will explain their reasoning for understanding * choosing the poses and sequence that they have developed, how it will continue to benefit and

support their daily life physically, mentally and emotionally in accordance to their written intentions.

4. How will you know if you were successful in your efforts to teach this outcome?

By each student achieving or moving closer to achievement through participating a minimum of 3 classes a week and a maximum of 10 classes per week. My goal is that 90% of my students will improve their physical condition.

Outcome #1: *

Outcome #2: How will you know if you were successful in your efforts to teach this outcome? *

I will assess my students physical demonstration by their ability to correctly and safely perform chosen postures using proper alignment, strength and flexibility. My plan is for 90% of my students to recognize the amazing benefits that yoga can have in their life as a whole and retain the skills to maintain lifelong health and fitness.

Outcome #3: How will you know if you were successful in your efforts to teach this outcome? *

I will assess their oral presentation based on accurate knowledge that is delivered using the applied principals, correct language and techniques of yogic conditioning. My goal is that 90% of my students will gain the understanding and importance of each of these and how to employ the techniques in everyday life.

5. Instructor Questions: Create two course specific questions to be included on the Student Course Evaluation.
Question #1

Do you feel you have a better understanding of what yoga is and means to you in your life?

Question #2

Do you feel that your overall health has improved over the course of this term?

Do you require the names of students who complete the course evaluation survey? *

- No
