4. How will you know if you were successful in your efforts to teach this outcome?

Outcome #1: *

Success of outcome will be determined by a series of analytical papers, a research paper, a political letter, in class participation, and moodle discussion's grade average combined. If the class's grade average is 90% or above, this will indicate a mastery of the subject material learned. 80%–89.9% will indicate above average understanding of subject material with 70% – 79.9% indicating average. Anything below 70% will indicate below average understanding. I will conclude the class successful if a grade average of 70% or higher is met.
