## Course Assessment- Part B: Your Results & Analysis

| Your Email *  |  |
|---|--|
| Please select your course and name from the<br>drop-down menu. If your course or name are<br>incorrect or missing, contact the Curriculum<br>and Assessment Administrative Assistant,<br>541-506-6037 or ggilliland@cgcc.edu.   | BA 256 – Income Tax – 1093565 – Stephen Shwiff – Winter 2019   |
| Part B: Your Results<br><b>DIRECTIONS</b><br>1. Report the outcome achievement data<br>gathered via the assignments, tests, etc. you<br>identified for each outcome (question 3) of<br>your Part A. (Only include data for students<br>who completed the course. Do not include<br>students who withdrew or earned an<br>incomplete) Data for all 3 outcomes should<br>be reported below. *                         | One student failed due to a lack of work to attend class, complete or<br>even attempt assignments, and non-responsiveness to outreach by me.<br>86% achieved a grade over 75%.   |
| Outcome #1  | Complete a basic set of forms and schedules for an individual taxpayer.  |
| % of students who successfully achieved the outcome (C or above) *  | 86%  |
| Outcome #2 *  | Understand and apply current tax rules and regulations.  |
| % of students who successfully achieved the outcome (C or above) *  | 86%  |
| Outcome #3 *  | Calculate the correct amount of tax using tax tables and/or tax formulas   |
|   | provided by the government.  |
| % of students who successfully achieved the outcome (C or above) *  | 86%  |
| ANALYSIS<br>3. What contributed to student success<br>and/or lack of success? *   | The collaborative classroom where instructor and students work<br>together on a series of tax scenarios, 8 mandatory, several more<br>optional, to prepare for the volunteer sessions where as certified tax<br>prepares, each student is responsible for their own client with their own<br>taxes. Students took the class seriously as preparation for a real world<br>scenario and prepared for class and worked hard in class, even staying<br>30 minutes after class was over to fully understand a scenario. |
| 4. Helping students to realistically self-<br>assess and reflect on their understanding<br>and progress encourages students to take<br>responsibility for their own learning. Please<br>compare your students' perception of their<br>end-of-term understanding/mastery of the<br>three outcomes (found in student<br>evaluations) to your assessment (above) of<br>student achievement of the three outcomes.<br>* | I feel the single evaluation found the same as I did above in the preparation and the value of the volunteer time with Tax-Aide.   |

|--|---|
| 5. Did student achievement of outcomes<br>meet your expectations for successfully<br>teaching to each outcome (question 4 from<br>Part A) *  | Yes   |
| 6. Based on your analysis in the questions<br>above, what course adjustments are<br>warranted (curricular, pedagogical, student<br>instruction, etc.)? *   | Always in this class, with so much material and so many rabbit holes<br>students could fall into, organizing the material is preeminent. I plan to<br>examine the practice questions necessary for tax certification and break<br>them into more manageable pieces. As one student suggest, a<br>document highlighting what they should read and understand for each<br>assignment, while already in the material, might help direct them better<br>to specific training. |
| 7. What resources would be required to<br>implement your recommended course<br>adjustments (materials, training, equipment,<br>etc.)? What Budget implications result?   | None, focus on the Open resources Tax-Aide provides.  |
| 8. Reflect on any adjustments you made<br>from the last assessment of this course (if<br>applicable) and their effectiveness in student<br>achievement of outcomes. *  | The longer classroom time before volunteering and the focus on tax scenarios in a cooperative classroom setting seemed to prepare students better to meet the outcomes.   |
| 9. Describe how you explain information about course outcomes and their relevance to your students.  | The course outcomes are in the syllabus and are discussed in the first class. They are so broad that they are easily invoked throughout the term.   |
| <ul> <li>10. Please describe any changes/additions to instruction, curriculum or assessment that you made to support students in better achieving the CGCC Core Learning Outcomes:</li> <li>CLO #1: Communication. The areas that faculty are focusing on are: "Source and Evidence" and "Organization and Presentation" and</li> <li>CLO #2: Critical Thinking/Problem Solving. The areas that faculty are focusing on are: "Student's Position" (Critical Thinking) and "Evaluate Potential Solutions" (Problem Solving).</li> <li>CLO #4: Cultural Awareness. The area that faculty is focusing on is: "Curiosity" – Encouraging our students to "Ask deeper questions about other cultures and seek out answers to these questions"</li> </ul> |   |
