Analysis:

1. Describe assessment results.

NCLEX type exam for NUR110- the nat. norm is 66%, the student cohort is 61.4%. this exam revealed that the students were not at the national level, but improved from the previous cohort year. So Kaplan scores are improving. No changes are planned at this time. Exam scores for the next two terms revealed an improvement to be above the national norm. NUR111-Nat. norm is 49%, student cohort is 57.5%. NUR112-Nat. norm is 65%, student cohort is 73.9%. All students participated in and passed the Cases Study Capstone presentation above the 70% target level. All students passed the clinical PBO for NUR110, 1 student did not pass the clinical PBO for NUR111, all students passed the clinical PBO for NUR 112.

2. Describe any changes that were implemented from the previous assessment. Include the effect that these changes had on students' attainment of degree, certificate or program outcomes.

No changes have been made at this time. Improvement is being seen. So data is continuing to be collected for future reference.

3. Identify any changes that should, as a result of this assessment, be implemented towards improving students' attainment of degree, certificate, or program outcomes.

No changes are being made.

4. Describe your plan for implementation of any changes.

No changes are being made at this time. Curriculum changes are being made for the 18-19 year.

5. Departmental faculty involvement.

1st Year faculty

6. Evaluate the assessment strategy.

7. Additional comments.

No changes are being made at this time. Curriculum changes are being made for the 18-19 year. These changes involve both 1st and 2nd year faculty because the changes affect the entire program.
