

Assessment of Outcomes Achievement
Degree, Certificate, Program

Name of Degree, Certificate or Program: EMT Certificate

1. Describe assessment results.

The class was successful, students were actively engaged. **The National exam for EMTs all the students passed the didactic portion and only one was not successful in the practical portion the first time but did pass on the 2nd testing.**

2. Identify any changes that should, as a result of this assessment, be implemented towards improving students' attainment of degree, certificate, or program outcomes. **No changes**
3. Describe your plan for implementation of any changes. None
4. Departmental faculty involvement. **This was a team effort, with another part time EMT faculty teaching on the days the primary faculty was not available. The students had positive comments about both instructors.**
5. Evaluate the assessment strategy. **No need to change the evaluation strategy, Class testing prepares them to take the National EMT Registry exam and when they took the National exam 90% passed on the first take. They must pass exam this to be eligible to apply for licensure in Oregon as an EMT. our students did very well.**
6. Reflect on any adjustments you made from the last assessment of this degree or certificate and their effectiveness in student achievement of outcomes? **For the past several years this course has been offered 40 % online, the instructors, considering the course content and the changes in the State and National testing, placing more emphasis on hands-on demonstration of skills related to cases scenarios, they have decided to increase the course to 100% face-to-face. There will be more integration of technical skills and active student participation throughout the class time.**
