Note for evaluators: Improved datasharing is forthcoming for community colleges in the state of Oregon. We have been advised by our Institutional Researcher, Justin Smith, Director of Institutional Effectiveness at Linn Benton Community College that the Oregon Community College Association and the Oregon Student Success Center have been working to develop a system of shared data that will allow us to better benchmark our institutional effectiveness data (discussed in Section 2 of this Mid Cycle Review Report) against our selected peers. While we have ready access to FTE and Headcount data through the Higher Education Coordinating Commission, the other data points (i.e., gateway math and writing, persistence, retention) are forthcoming for ideal comparison. Some of the data points, such as early momentum metrics
